

XM satellite radio is the best NEW technology on the market... Let it LIVE... I LOVE it. I Love it in my car, @ home, @camp, everywhere I go.

The XM Instant TRAFFIC and WEATHER is a welcomed part of the service. In no way should Washington, through efforts of the NAB, be able to take that away. I support XM and their first amendment rights. We must allow NEW technology to exist, advance, and compete.

Please, Stop this foolishness...just buy an XM system and see for yourself how great it is. It broadens horizons and should be allowed to inform as well.

Sincerely,
Emily G. Smith
